

PASHA HAWAII®

Hawaii Service Overview

Container & Roll-on/Roll-off Service to/from Hawaii.

Pasha Hawaii provides the broadest scope of ocean transportation services between Hawaii and the Mainland with fixed-day sailings for containers, rolling stock and out-of-gauge cargoes. The company operates five vessels in active deployments and keeps one ship in reserve to cover routine vessel maintenance. Pasha Hawaii operates an exclusive terminal facility on Honolulu's Sand Island.

The Hawaii container service operates with the *Marjorie C*, the combination container/roll-on/roll-off (ConRo) vessel, as well as four containerships. Pasha Hawaii's fleet serving the Hawaii market is set to expand with the construction of two new 774-foot Liquefied Natural Gas ("LNG") fueled vessels that will carry 2,525 TEUs, including a fully laden capacity of 500 45-foot containers, 400 refrigerated containers, and 300 40-foot dry containers, with a sailing speed of 23.0 knots.

California Hawaii Express (CHX)

The California Hawaii Express delivers consistent and reliable service for Honolulu and the Neighbor Islands with two California port calls each week. Offering Oakland departures on Wednesdays and Long Beach sailings on Saturdays, the service provides Thursday morning cargo availability in Honolulu so customers have their goods on the shelf in time for the weekend. Our Neighbor Island connections offer similar schedule benefits, with Friday arrivals on Maui, Kauai, and the Big Island.

Long Beach Hawaii Express (LHX)

The direct midweek sailing from Long Beach every Wednesday provides the fastest transits in the market with a closed loop service between Hawaii and Southern California. The service provides on-time Sunday evening arrivals in Honolulu for Monday morning cargo availability. The quick eastbound transit direct to Long Beach is a favorite for refrigerated and other time-sensitive cargoes.
