LHX Service Returns to Normal Operations

Pasha Hawaii will return to normal vessel operations on our LHX Service to adjust to the current volume levels and traffic patterns. The LHX service is our direct sailing between Long Beach and Honolulu that departs Long Beach every Wednesday. **Effective Wednesday, June 24**, containers booked to Pasha’s Westbound LHX service will sail on Pasha vessels. We appreciate your support during the vessel rationalization program that provided consistency with regular, weekly service in support of Hawaii supply chains, while helping manage costs during the COVID-related slowed economy.

Neighbor Island Barge Connections

Young Bros has maintained a modified container barge service throughout this difficult period and continues to support our Neighbor Island services. Confirming the current barge connections:
