**Dear Valued Customer:**

The Central Pacific Hurricane Center is tracking Douglas, a category 3 hurricane located 1235 mi ESE of Hilo Hawaii; moving WNW at 18 mph. The storm contains maximum sustained winds of 125 mph. On its current path, Douglas is expected to approach the Hawaiian Islands on Sunday 7/26 and present high winds, heavy rain and high surf for the region.

Based on this information and guidance from U.S. Coast Guard and Hawaii DOT, we are advising our clients of our intended schedule modifications.
